

Comstock Resources, Inc. Announces Another Successful Well at Double A Wells Field

May 31, 2000

FRISCO, Texas, May 31 /PRNewswire/ -- Comstock Resources, Inc. (NYSE: CRK "Comstock" or the "Company") today announced the production test results of the Champion C #3 well. This well was drilled to a total depth of 14,250 feet and was completed in the upper Woodbine formation through perforations from 13,994 feet to 14,042 feet. The well's completion was tested at 4.2 million cubic feet of natural gas per day and 333 barrels of condensate per day (6.2 million cubic feet of natural gas equivalent per day) flowing on an 18/64 inch choke at 3,000 pounds per square inch flowing tubing pressure. Comstock owns a 62.7% working interest and is the operator of this new well. This well is the seventh successful well drilled at Double A Wells field in Polk County, Texas since Comstock started its redevelopment of the field in 1999. In its Double A Wells field program, Comstock is currently at 11,200 feet in drilling the Jackson #3 well, which has a proposed total depth of 14,100 feet.

Certain statements in this news release regarding future expectations, plans for drilling, estimates of oil and gas reserves and production and pricing may be regarded as "forward looking statements" within the meaning of the Securities Litigation Reform Act. They are subject to various risks, such as operating hazards, drilling risks, and the inherent uncertainties in interpreting engineering data relating to underground accumulations of oil and gas. Actual results may vary materially.

Comstock Resources, Inc. is a growing independent energy company based in Frisco, Texas and is engaged in oil and gas acquisitions, exploration and development primarily in Texas, Louisiana and the Gulf of Mexico.
