

COMSTOCK RESOURCES, INC.

146,072 Shares of Common Stock

We are registering a total of 146,072 shares of our common stock, par value of \$.50 per share, for sale by the Selling Security Holders identified in this prospectus. Please see the section in this prospectus entitled "Selling Security Holders."

The Selling Security Holders were issued shares of our common stock in lieu of cash dividends on our Series A 1999 Convertible Preferred Stock. Please see the Section in this prospectus entitled "Description of Capital Stock - Preferred Stock."

We will not receive any of the proceeds from the sale of the common stock by the Selling Security Holders. We have agreed to pay the expenses of the Selling Security Holders in connection with the registration of these shares of our common stock. We estimate those expenses to be \$8,000.

The Selling Security Holders may offer the shares through public or private transactions at prevailing market prices, at prices related to such prevailing market prices or at privately negotiated prices. Our common stock is listed on the New York Stock Exchange under the symbol "CRK." On June 30, 1999, the last reported sale price for our common stock was \$3.3125 per share.

This investment involves a high degree of risk. Please see the section in this prospectus entitled "Risk Factors" beginning on page 6.

Neither the Securities and Exchange Commission nor any State Securities Commission has passed upon the accuracy or adequacy of this prospectus. Any representation to the contrary is a criminal offense.

The date of this prospectus is June 30, 1999

FORWARD-LOOKING STATEMENTS

This prospectus includes "forward-looking statements" within the meaning of Section 27A of the Securities Act and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). All statements other than statements of historical facts included in or incorporated by reference to this prospectus, including without limitation, statements under "Summary," and "Risk Factors,"

regarding budgeted capital expenditures, increases in oil and natural gas production, our financial position, oil and natural gas reserve estimates, business strategy and other plans and objectives for future operations, are forward-looking statements. Although we believe that the expectations reflected in such forward-looking statements are reasonable, we can give no assurance that such expectations will prove to have been correct. There are numerous uncertainties inherent in estimating quantities of proved oil and natural gas reserves and in projecting future rates of production and timing of development expenditures, including many factors beyond our control. Reserve engineering is a subjective process of estimating underground accumulations of oil and natural gas that cannot be precisely measured. Furthermore, the accuracy of any reserve estimate is a function of the quality of available data and of engineering and geological interpretation and judgment. As a result, estimates made by different engineers often vary from one another. In addition, results of drilling, testing and production subsequent to the date of an estimate may justify revisions of such estimate and such revision, if significant, would change the schedule of any further production and development drilling. Accordingly, reserve estimates are generally different from the quantities of oil and gas that are ultimately recovered. Additional important factors that could cause actual results to differ materially from our expectations are discussed in "Risk Factors" and elsewhere in this prospectus. Should one or more of these risks or uncertainties occur, or should underlying assumptions prove incorrect, our actual results and plans for 1999 and beyond could differ materially from those expressed in forward-looking statements. All subsequent written and oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by such factors.

WHERE YOU CAN FIND MORE INFORMATION

We are subject to the informational requirements of the Exchange Act and therefore we file annual, quarterly and current reports, proxy statements and other documents with the Securities Exchange Commission ("SEC" or "Commission"). You may read and copy any of the reports, proxy statements and any other information that we file at the SEC's Public Reference Room at 450 Fifth Street, N.W., Washington, D.C. 20549, and at the Commission's regional offices at 7 World Trade Center, Suite 1300, New York, New York 10048, and Citicorp Center, 500 West Madison Street, Suite 1400, Chicago, Illinois 60661. You may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800- SEC-0300. In addition, the SEC maintains a web site at <http://www.sec.gov> that contains reports, proxy and information statements and other information regarding registrants that file electronically with the SEC. Our common stock is quoted on the New York Stock Exchange under the trading symbol "CRK." Reports, proxy and information statements and other information about us may be inspected at the New York Stock Exchange, 20 Broad Street, New York, New York 10005.

We have filed with the SEC a registration statement on Form S-3 under the Securities Act, with respect to the shares of common stock offered in this prospectus. This prospectus is part of that registration statement and, as permitted by the Commission's rules, does not contain all of the information set forth in the registration statement. For further information about us and our common stock, we refer you to those copies of contracts or other documents that have been filed as exhibits to the registration statement, and statements relating to such documents are qualified in all respects by such reference. You can review and copy the registration statement and its exhibits and schedules from the SEC at the address listed above or from its web site.

INFORMATION INCORPORATED BY REFERENCE

The SEC allows us to "incorporate by reference" into this prospectus information we file with the SEC in other documents. This means that we can disclose important information to you by referring to other documents that we file with the SEC. The information may include documents filed after the date of this prospectus which update and supersede the information you read in this prospectus. We incorporate by reference the documents listed below, except to the extent information in those documents is different from the information contained in this prospectus, and all future documents filed by us with the SEC under Section 13(a), 13(c), 14, or 15(d) of the Exchange Act until the offering of these shares is terminated: (1) Annual Report on Form 10-K for the year ended December 31, 1998; (2) Quarterly Report on Form 10-Q for the three months ended March 31, 1999; (3) Proxy Statement dated April 30, 1999 for the 1999 Annual Meeting of Stockholders; and (4) Current Report on Form 8-K dated April 29, 1999.

Any statement contained in a document incorporated or deemed to be incorporated by reference in this prospectus shall be deemed modified, superseded or replaced for purposes of this prospectus to the extent that a statement contained in this prospectus or in any subsequently filed document that also is or is deemed to be incorporated by reference in this prospectus modifies, supersedes or replaces such statement. Any statement so modified, superseded or replaced shall not be deemed, except as so modified, superseded or replaced, to constitute a part of this prospectus.

We will provide without charge to each person, including any beneficial owner, to whom a copy of this prospectus is delivered, upon such person's written or oral request, a copy of any or all of the information incorporated by reference in this prospectus (other than exhibits to such documents, unless such exhibits are specifically incorporated by reference into the information that this prospectus incorporates). Requests should be directed to Comstock Resources, Inc., 5300 Town and County Blvd., Suite 500, Frisco, Texas 75034, Attention: Roland O. Burns, Senior Vice President, telephone number (972) 668-8800.

PROSPECTUS SUMMARY

The following summary is qualified in its entirety by the detailed information appearing elsewhere or incorporated by reference in this prospectus.

Comstock

We are an independent energy company engaged in the acquisition, development, production and exploration of oil and natural gas properties. Our oil and natural gas reserve base is entirely concentrated in the Gulf of Mexico, Southeast Texas and East Texas/North Louisiana regions. Our reserve base is 67% natural gas and 76% proved developed on a Bcfe basis as of December 31, 1998. Our estimated proved oil and natural gas reserves are 371.9 Bcfe with an estimated present value of proved reserves of \$305.3 million as of December 31, 1998 and we operate 83% of the present value of proved reserves of our properties. For the year ended December 31, 1998, our total revenues and EBITDA were \$93.2 million and \$66.9 million, respectively.

Our proved reserves at December 31, 1998 and our 1998 average daily production are summarized below:

	Reserves at December 31, 1998				1998 Daily Production			
	Oil --- (MMBbls)	Gas --- (Bcf)	Total ----- (Bcfe)	% of Total -----	Net Oil ----- (MBbls/d)	Net Gas ----- (Mmcfe/d)	Total ----- (MMcfe/d)	% of Total -----

Corporate Information

We were originally organized as a Delaware corporation in 1919 under the name Comstock Tunnel and Drainage Company for the primary purpose of conducting gold and silver mining operations in and around the Comstock lode in Nevada. In 1983, we reincorporated under the laws of Nevada. In November 1987, we changed our name to Comstock Resources, Inc. References in this prospectus to "Comstock Resources, Inc.," "we," "our," and "us" refer to Comstock Resources, Inc. and our subsidiaries. Our executive offices are located at 5300 Town and Country Blvd., Suite 500, Frisco, Texas 75034 and our telephone number is (972) 668-8800.

The Offering

Common Stock Offered by the Selling Security Holders.....146,072 shares (1)
 Common Stock Outstanding at June 30, 1999.....24,771,489 shares (2)
 New York Stock Exchange Symbol.....CRK

(1) Represents shares issued to the Selling Security Holders in lieu of the payment of cash dividends on our Series A 1999 Convertible Preferred Stock. (2) At June 30, 1999, an additional 13,571,030 shares of common stock are reserved for issuance upon exercise of outstanding stock options and warrants and the conversion of the Series A 1999 Convertible Preferred Stock.

RISK FACTORS

You should consider carefully the following risk factors together with all of the other information included in this prospectus. This section includes or refers to certain forward-looking statements. You should refer to the explanation of the qualifications and limitations on such forward-looking statements discussed under the heading "Forward-Looking Statements" in this prospectus.

Our business is dependent upon the prices for oil and natural gas and these prices are volatile.

Our business is dependent upon the prices of, and demand for, oil and natural gas. Historically, the prices for oil and natural gas have been volatile and are likely to remain volatile in the future. The prices we receive for our oil and natural gas production and the level of such production are subject to wide fluctuations and depend on numerous factors beyond our control, including:

- o seasonality,
- o the condition of the United States economy,
- o imports of crude oil and natural gas,
- o political conditions in other oil-producing and natural gas-producing countries,
- o the actions of the Organization of Petroleum Exporting Countries, and
- o domestic government regulation, legislation and policies.

Our average price received for crude oil production on December 31, 1997 was \$17.24 per barrel. On December 31, 1998, this price had declined to \$10.55 per barrel. Our average price received for natural gas production on December 31, 1997 was \$2.64 per Mcf. On December 31, 1998, this price had declined to \$2.21 per Mcf. Any continued and extended decline in the price of crude oil or natural gas will adversely affect our:

- o revenues, profitability and cash flow from operations,
- o present value of proved reserves,
- o borrowing capacity, and
- o ability to obtain additional capital.

In order to reduce our exposure to price risks, we may enter into oil and natural gas price swap arrangements to hedge a portion of our anticipated sales. Such arrangements may limit our ability to benefit from increases in oil and natural gas prices. As of June 24, 1999, we have entered into natural gas price swap agreements covering 9.3 Bcf of our natural gas production from March through October 1999 at a fixed price of approximately \$2.03 per Mcf (including basis adjustment). Although we are not currently experiencing any significant involuntary curtailment of our natural gas production, market, economic and regulatory factors may in the future materially affect our ability to sell our natural gas production.

We plan to pursue acquisitions as part of our growth strategy and there are risks in connection with acquisitions.

Our rapid growth in recent years is attributable in significant part to acquisitions of producing properties. We expect to continue to evaluate and,

where appropriate, pursue acquisition opportunities on terms we consider favorable. However, we cannot assure you that suitable acquisition candidates will be identified in the future, or that we will be able to finance such acquisitions on favorable terms. In addition, we compete against other companies for acquisitions, and we cannot assure you that we will successfully acquire any material property interests. Further, we cannot assure you that future acquisitions by us will be integrated successfully into our operations or will increase our profits.

The successful acquisition of producing properties requires an assessment of numerous factors beyond our control, including:

- o recoverable reserves,
- o exploration potential,
- o future oil and natural gas prices,
- o operating costs, and
- o potential environmental and other liabilities.

In connection with such an assessment, we perform a review of the subject properties that we believe to be generally consistent with industry practices. The resulting assessments are inexact and their accuracy uncertain, and such a review may not reveal all existing or potential problems, nor will it necessarily permit us to become sufficiently familiar with the properties to fully assess their merits and deficiencies. Inspections may not always be performed on every well, and structural and environmental problems are not necessarily observable even when an inspection is made.

Additionally, significant acquisitions can change the nature of our operations and business depending upon the character of the acquired properties, which may be substantially different in operating and geologic characteristics or geographic location than our existing properties. While our current operations are focused in the Gulf of Mexico, Southeast Texas, and East Texas/North Louisiana, we may pursue acquisitions or properties located in other geographic areas.

We have substantial debt and debt service requirements.

Large Amount of Debt

We have substantial debt and debt service requirements. As of March 31, 1999, assuming that the sale of \$150.0 million of our 11 1/4% Senior Notes due 2007 (the "Notes") and 1,948,001 share of Series A 1999 Convertible Preferred Stock and 1,051,999 shares of Series B 1999 Non-Convertible Preferred Stock had been completed as of such time, our ratio of total debt to total capitalization would have been approximately 65%.

Consequences of Debt

Our substantial debt will have important consequences, including:

- o a substantial portion of our cash flow from operations will be required to make debt service payments,
- o our ability to borrow additional amounts for working capital, capital expenditures (including acquisitions) or other purposes will be limited, and

- o our debt could limit our ability to capitalize on significant business opportunities, our flexibility in planning for or reacting to market conditions and our ability to withstand competitive pressures and economic downturns.

In addition, future acquisition or development activities may require us to alter our capitalization significantly. These changes in capitalization may significantly increase our debt. Moreover, our ability to meet our debt service obligations and to reduce our total debt will be dependent upon our future performance, which will be subject to general economic conditions and financial, business and other factors affecting our operations, many of which are beyond our control. If we are unable to generate sufficient cash flow from operations in the future to service our indebtedness and to meet other commitments, we will be required to adopt one or more alternatives, such as refinancing or restructuring our indebtedness, selling material assets or seeking to raise additional debt or equity capital. We cannot assure you that any of these actions could be effected on a timely basis or on satisfactory terms or that these actions would enable us to continue to satisfy our capital requirements.

Restrictive Debt Covenants

Our bank credit facility contains a number of significant covenants. These covenants will limit our ability to, among other things:

- o borrow additional money,
- o merge, consolidate or dispose of assets,
- o make certain types of investments,
- o enter into transactions with our affiliates, and
- o pay dividends.

Our failure to comply with these covenants would cause a default under our bank credit facility. A default, if not waived, could result in acceleration of our indebtedness, in which case the debt would become immediately due and payable. If this occurs, we may not be able to repay our debt or borrow sufficient funds to refinance it. Even if new financing is available, it may not be on terms that are acceptable to us. Complying with these covenants may cause us to take actions that we otherwise would not take or not take actions that we otherwise would take.

We may not have sufficient funds to meet our substantial capital requirements.

We make, and will continue to make, substantial capital expenditures for the acquisition, development and exploration of oil and natural gas reserves. Historically, we have financed these expenditures primarily with cash generated by operations, bank borrowings and the sale of equity securities and non-strategic assets. We believe that we will have sufficient cash provided by operating activities to fund anticipated 1999 capital expenditures other than significant acquisitions. We intend to borrow under our bank credit facility or to obtain other debt or equity financing as needed to finance future acquisitions. If revenues or our borrowing base decrease as a result of lower oil and natural gas prices, operating difficulties or declines in reserves, our ability to obtain the capital necessary to undertake or complete future development programs and to pursue acquisition opportunities may be limited. We cannot assure you that additional debt or equity financing or cash generated by operations will be available to meet these requirements. If we need additional funds, our inability to raise them may adversely affect our operations.

Our future success depends on our ability to replace our reserves.

Our future success depends upon our ability to find, develop or acquire additional oil and natural gas reserves that are economically recoverable. Our proved reserves will generally decline as reserves are depleted, except to the extent that we conduct successful exploration or development activities or acquire properties containing proved reserves, or both. To increase reserves and production, we must continue our acquisition and drilling activities. We cannot assure you, however, that our acquisition and drilling activities will result in significant additional reserves or that we will have continuing success drilling productive wells at low finding and development costs. Furthermore, while our revenues may increase if prevailing oil and natural gas prices increase significantly, our finding costs for additional reserves could also increase.

Drilling activities are subject to many risks.

Drilling activities are subject to many risks, including the risk that no commercially productive reservoirs will be encountered. We cannot assure you that new wells we drill will be productive or that we will recover all or any portion of our investment. Drilling for oil and natural gas may involve unprofitable efforts, not only from dry wells, but from wells that are productive but do not produce sufficient net revenues to return a profit after drilling, operating and other costs. The cost of drilling, completing and operating wells is often uncertain. Our drilling operations may be curtailed, delayed or canceled as a result of numerous factors, many of which are beyond our control, including:

- o title problems,
- o adverse weather conditions,
- o compliance with governmental requirements, and
- o shortages or delays in the delivery of equipment and services.

Our operations are subject to operating hazards and uninsured risks.

Our operations are subject to all of the risks normally associated with the exploration for and the production of oil and natural gas, including blowouts, cratering, oil spills and fires, each of which could result in damage to or destruction of oil and natural gas wells, production facilities or other property, or injury to persons. In addition, we may from time to time conduct relatively deep drilling which will involve increased drilling risks of high pressures and mechanical difficulties, including stuck pipe, collapsed casing and separated cable. We cannot assure you that our insurance will adequately cover any losses or liabilities. Furthermore, we cannot predict the continued availability of insurance, or availability at commercially acceptable prices.

We operate in a highly competitive industry.

The oil and natural gas industry is highly competitive. Our competitors for the acquisition, development and exploration of oil and natural gas properties, purchases and marketing of natural gas, transportation and processing of natural gas, and capital to finance such activities, include companies that have greater financial and personnel resources than we do. These resources could allow those competitors to price their products and services more aggressively than we can, which could hurt our profitability. Moreover, our ability to acquire additional properties and to discover reserves in the future will be dependent upon our ability to evaluate and select suitable properties and to consummate transactions in a highly competitive environment.

There are many uncertainties in estimating reserves and future net cash flows.

There are many uncertainties in estimating quantities and values of proved reserves, projecting future rates of production and timing of development expenditures, including many factors beyond our control. Reserve engineering is a subjective process of estimating the recovery from underground accumulations of oil and natural gas that cannot be precisely measured. The accuracy of any reserve estimate depends on the quality of available data, production history and engineering and geological interpretation and judgment. Because all reserve estimates are to some degree speculative, the quantities of oil and natural gas that are ultimately recovered, production and operating costs, the amount and timing of future development expenditures and future oil and natural gas prices may all differ materially from those assumed in these estimates. In addition, different reserve engineers may make different estimates of reserve quantities and cash flows based upon the same available data. The present value of proved reserves and the standardized measure of discounted future net cash flows set forth in this prospectus are estimates only and should not be construed as the current market value of the estimated oil and natural gas reserves attributable to our properties. Thus, the information set forth in this prospectus includes revisions of certain reserve estimates attributable to proved properties included in the preceding year's estimates. Such revisions reflect additional information from subsequent activities, production history of the properties involved and any adjustments in the projected economic life of such properties resulting from changes in product prices. Any future downward revisions could adversely affect our financial condition, borrowing base under our bank credit facility, future prospects and the market value of our securities.

We have not paid dividends recently.

During the last five fiscal years, we have not paid any dividends on our outstanding common stock, nor do we intend to do so. In addition, we are restricted from doing so under our bank credit facility and by the terms of our outstanding preferred stock. We currently intend to retain our cash for the continued expansion of our business.

Shares eligible for sale in the public market may affect the market price of our common stock.

Sales of substantial amounts of our common stock in the public market could adversely affect the market price for our common stock. If our stockholders were to sell a significant number of shares, the prevailing market price of our common stock could be adversely affected.

Certain provisions of Nevada law and our corporate governance documents may affect a third party's ability to acquire Comstock.

Our articles of incorporation, bylaws and stockholders' rights plan and Nevada law include a number of provisions that may have the effect of delaying or deterring a change in the control or management of the Company and encouraging persons considering unsolicited tender offers or other unilateral takeover proposals to negotiate with our board of directors rather than pursue non-negotiated takeover attempts. Please see the section in this prospectus called "Description of Capital Stock."

We could be affected by the year 2000 risk.

Failure by us or our third party service providers to be Year 2000 compliant in a timely manner could have a material effect on our operations. Because many computers and computer applications define dates by the last two digits of the year, "00" may not be properly recognized as the year 2000. This error could cause miscalculations or system errors. We outsource our information technology systems and software, and our vendors have informed us that these systems and software are Year 2000 compliant. However, we do not have a formal

contingency plan if our vendors experience Year 2000 problems. The Year 2000 issue may also affect third parties with whom we conduct business, which could lead to an adverse effect on our operations.

We are subject to extensive governmental regulation.

Our business is affected by certain federal, state and local laws and regulations relating to the development, production, marketing, pricing, transportation and storage of oil and natural gas. Our business is also subject to extensive and changing environmental and safety laws and regulations governing plugging and abandonment of wells, the discharge of materials into the environment or otherwise relating to environmental protection. Sanctions for noncompliance with these laws and regulations may include administrative, civil and criminal penalties, revocation of permits and corrective action orders. These laws sometimes apply retroactively. In addition, a party can be liable for environmental damage without regard to that party's negligence or fault. Therefore, we could have liability for the conduct of others, or for acts that were in compliance with all applicable laws at the time we performed them. Environmental laws have become more stringent over the years. In addition, the modification or interpretation of existing laws or regulations or the adoption of new laws or regulations curtailing exploratory or development drilling for oil and gas could limit well servicing opportunities. We cannot assure you that present or future regulation will not adversely affect our operations.

We depend on our key personnel.

We believe that the success of our business strategy and our ability to operate profitably depend on the continued employment of M. Jay Allison, President and Chief Executive Officer, and a limited number of other senior management personnel. Loss of the services of Mr. Allison or any of those other individuals could have a material adverse effect on our operations.

DESCRIPTION OF CAPITAL STOCK

Our authorized capital stock consists of 50,000,000 shares of common stock and 5,000,000 shares of preferred stock, \$10.00 par value per share (the "Preferred Stock"). At June 30, 1999, we had 24,771,489 shares of common stock and 3,000,000 shares of Preferred Stock issued and outstanding. We also had options to purchase 6,071,030 shares of common stock outstanding at that date. In the aggregate, 13,571,030 shares of common stock have been reserved for issuance pursuant to the exercise of currently outstanding options and the conversion of the Preferred Stock.

Common Stock

Subject to the prior rights of the outstanding Preferred Stock and any other shares of Preferred Stock that may be issued from time to time, and except as otherwise set forth below, the shares of common stock (1) are entitled to such dividends as may be declared by our board of directors, in its discretion, out of funds legally available therefor; (2) are entitled to one vote per share on matters voted upon by the stockholders and have no cumulative voting rights; (3) have no preemptive or conversion rights; (4) are not subject to, or entitled to the benefits of, any redemption or sinking fund provision; and (5) are entitled, upon liquidation, to receive our assets remaining after the payment of corporate debts and the satisfaction of any liquidation preferences of the Preferred Stock. Although our Articles of Incorporation do not deny preemptive rights to stockholders, under Nevada law no stockholders have preemptive rights with respect to shares that, upon issuance, are registered under Section 12 of the Exchange Act. The common stock is currently registered under Section 12 of the Exchange Act.

Because our shares of common stock do not have cumulative voting rights, the holders of a majority of the shares voting for the election of directors can elect all members of the class of Comstock's classified Board of Directors that are to be elected at a meeting of the stockholders, subject to any rights of the holders of the Preferred Stock. Please see "Preferred Stock" immediately below.

Preferred Stock

The Board of Directors is empowered, without approval of the stockholders, to cause shares of our authorized Preferred Stock to be issued in one or more classes or series, from time to time, with the number of shares of each class or series and the rights, preferences and limitations of each class or series to be determined by it. Among the specific matters that may be determined by our board of directors are the rate of dividends, redemption and conversion prices, terms and amounts payable in the event of liquidation and voting rights. Shares of Preferred Stock may, in our board of directors' sole determination, be issued with voting rights greater than one vote per share. Issuance of shares of Preferred Stock could involve dilution of the equity of the holders of common stock and further restrict the rights of such stockholders to receive dividends.

On April 27, 1999 the Board of Directors created two new series of Preferred Stock consisting of 3,000,000 shares designated as the Series A 1999 Convertible Preferred Stock (the "Series A Preferred") and 1,051,999 shares designated as the Series B 1999 Non-Convertible Preferred Stock (the "Series B Preferred"). On April 29, 1999, we sold to the Selling Security Holders 1,948,001 shares of our Series A Preferred and 1,051,999 shares of our Series B Preferred for a total consideration of \$30.0 million. The proceeds from the sale of the Preferred Stock were used to reduce outstanding indebtedness under our bank credit facility.

On June 30, 1999 we exercised our right to convert the Series B Preferred into an identical number of shares of Series A Preferred. As a result of such conversion, there are 3,000,000 shares of Series A Preferred outstanding and no shares of Series B Preferred.

The shares of Series A Preferred accrue dividends at an annual rate of 9%. Dividends are payable quarterly in cash or in shares of our common stock, at our election. If dividends are paid in shares of common stock, the common stock is valued at 82.5% of the lower of the 5-day or 30-day average closing price of the common stock.

On May 1, 2005 and on each May 1, thereafter, so long as any shares of the Series A Preferred are outstanding, we are obligated to redeem 1,000,000 shares of the Series A Preferred at \$10.00 per share plus accrued and unpaid dividends thereon. The mandatory redemption price may be paid either in cash or in shares of common stock, or any combination thereof, at our option. If we elect to pay the mandatory redemption price in shares of common stock, the common stock will be valued at 82.5% of the lower of the common stock's 5-day or 30-day average closing price (immediately prior to the date of redemption). The holders of the Series A Preferred have the right, at their option and at any time, to convert all or any part of such shares into shares of common stock. The conversion price of the Series A Preferred as of the date of this prospectus is \$4.00 per share of common stock. If the holders of the Series A Preferred elected to convert all such shares into common stock at the conversion price, the holders would own approximately 24% of our issued and outstanding common stock as of June 30, 1999. We have the option to redeem the shares of the Series A Preferred at a price that would provide the holders with a specified rate of return on their original investment.

In the event of dissolution, liquidation or winding-up of Comstock, the holders of the Series A Preferred are entitled, after payments of all amounts payable to the holders of any Preferred Stock senior to the Series A Preferred, to receive out of the assets remaining \$10.00 per share, together with all dividends thereon accrued or in arrears, whether or not declared, before any payment is made or assets set apart for payment to the holders of the common stock.

The holders of the Series A Preferred are each entitled to vote with the holders of common stock on all matters submitted for a vote of the holders of shares of common stock on an "as converted" basis. Upon the occurrence of an "event of noncompliance" within the meaning of the terms of the Series A Preferred, the holders of the Series A Preferred have the right (for so long as such event of noncompliance continues) to elect two additional directors to our board of directors. An "event of noncompliance" includes (i) the failure to pay in the aggregate four quarterly dividends on such series, (ii) the failure to redeem such series in accordance with its terms, (iii) a default by us on certain indebtedness, (iv) M. Jay Allison ceasing to be our chief executive officer, and (v) the commencement of a bankruptcy or similar proceeding by or against the Company or any of its significant subsidiaries. We may not so long as the Series A Preferred is outstanding alter any of the rights, preferences or powers of the Series A Preferred or issue any shares of stock ranking on a parity with or senior to the Series A Preferred unless the requisite number of holders have consented thereto. Holders of the Series A Preferred also have the right to approve (1) certain mergers of the Company where we are not the surviving corporation, (2) the sale or disposition of substantially all of our assets or (3) payment of any dividend or distribution, on or for the redemption of common stock in excess of \$100,000 a year. The holders of the Series A Preferred also have the right to elect two directors (up to a maximum of four) each time we mandatorily redeem the Series A Preferred by issuing shares of common stock.

Stockholders' Rights Plan

On December 4, 1990, our board of directors adopted the Company's Stockholders' Rights Plan (the "Rights Plan") and we declared a dividend distribution of one preferred stock purchase right (a "Right") for each outstanding share of common stock. Each Right entitles the registered holder to purchase from us one one-hundredth of a share of Series A Junior Participating Preferred Stock, \$10.00 par value per share, at an exercise price of \$15.00 (the "Purchase Price") per one one-hundredth of a share of preferred stock, subject to adjustment. The description and terms of the Rights are set forth in a Rights Agreement (the "Rights Agreement") between us and American Stock Transfer and Trust Company, as successor Rights Agent.

The Rights are initially evidenced by the common stock certificates as no separate Rights certificates have been distributed. The Rights separate from the common stock and a "Distribution Date" will occur at the close of business on the earliest of (i) the tenth business day following a public announcement that a person or group of affiliated or associated persons (an "Acquiring Person") has acquired, or obtained the right to acquire, beneficial ownership of 20% or more of the outstanding shares of our common stock (the "Stock Acquisition Date"), (ii) the tenth business day (or such later date as may be determined by action of our board of directors) following the commencement of a tender offer or exchange offer that would result in a person or group beneficially owning 20% or more of the outstanding shares of common stock or (iii) the tenth business day after our board of directors determines that any individual, firm, corporation, partnership or other entity (each a "Person"), alone or together with its affiliates and associates, has become the beneficial owner of an amount of common stock which a majority of the continuing directors who are not officers of the Company determines to be substantial (which amount shall in no event be less than 10% of the shares of common stock outstanding) and at least a majority of the continuing directors who are not officers of the Company, after reasonable inquiry and investigation, including consultation with such Person as the directors shall deem appropriate, shall determine that such beneficial ownership by such Person (an "Adverse Person") is intended to cause us to repurchase the common stock beneficially owned by such Person or to cause pressure on us to take action or enter into a transaction intended to provide such Person with short-term financial gain under circumstances where the directors determine that the best long-term interests of the Company and our stockholders would not be served by taking such action or entering into such transaction or series of transactions at that time, or that such beneficial ownership is causing or is reasonably likely to cause a material adverse impact on us. The Rights are not exercisable until the Distribution Date and will expire at the close of business on December 17, 2000, unless earlier redeemed by us.

If (i) a Person becomes the beneficial owner of 20% or more of the then outstanding shares of our common stock (except (a) pursuant to certain offers for all outstanding shares of common stock approved by at least a majority of the continuing directors who are not officers of the Company or (b) solely due to a reduction in the number of shares of our common stock outstanding as a result of the repurchase of shares of common stock by us) or (ii) the Board of Directors determines that a Person is an Adverse Person, each holder of a Right will thereafter have the right to receive, upon exercise, common stock (or, in certain circumstances, cash, property or other securities of the Company) having a value equal to two times the exercise price of the Right. Notwithstanding any of the foregoing, following the occurrence of either of the events set forth in this paragraph, all Rights that are, or (under certain circumstances specified in the Rights Agreement) were, beneficially owned by any Acquiring Person or Adverse Person will be null and void.

If at any time following the Stock Acquisition Date, (i) we are acquired in a merger or other business combination transaction in which we are not the surviving corporation, or in which we are the surviving corporation, but our common stock is changed or exchanged (other than a merger which follows an offer described in clause (i)(a) of the preceding paragraph), or (ii) more than 50% of our assets, cash flow or earning power is sold or transferred, each holder of a

Right (except Rights which previously have been voided as set forth above) shall thereafter have the right to receive upon exercise, common stock of the acquiring company having a value equal to two times the exercise price of the Right.

At any time after the earlier to occur of (i) an Acquiring Person becoming such or (ii) the date on which our board of directors declares an Adverse Person to be such, the board of directors may cause us to exchange the Rights (other than Rights owned by the Adverse Person or Acquiring Person, as the case may be, which will have become null and void), in whole or in part, at an exchange ratio of one share of common stock per Right (subject to adjustment). Notwithstanding the foregoing, no such exchange may be effected at any time after any Person becomes the beneficial owner of 50% or more of our outstanding common stock.

The Rights Plan has certain anti-takeover effects including making it prohibitively expensive for a raider to try to control or take us over unilaterally and without negotiation with our board of directors. Although intended to preserve for our stockholders the long term value of the Company, the Rights Plan may make it more difficult for stockholders to benefit from certain transactions which are opposed by the incumbent board of directors.

In connection with the issuance of the Series A Preferred, we amended the Rights Plan to provide that the holders of the Series A Preferred would not be considered an Acquiring Person under the Rights Plan with respect to the shares of common stock issued pursuant to the Series A 1999 Preferred.

Anti-Takeover Provisions

In addition to the Rights Plan, our articles of incorporation and bylaws and Nevada law include certain provisions which may have the effect of delaying or deterring a change in control or management of the Company or encouraging persons considering unsolicited tender offers or other unilateral takeover proposals to negotiate with our board of directors rather than pursue non-negotiated takeover attempts. These provisions include a classified board of directors, authorized blank check preferred stock, restrictions on business combinations and the availability of authorized but unissued common stock. Please see "Preferred Stock" above.

Our bylaws contain provisions dividing the board of directors into classes with only one class standing for election each year. A staggered board makes it more difficult for stockholders to change the majority of the directors and instead promotes a continuity of existing management.

Nevada's "Combinations with Interested Stockholders Statute," Nevada Revised Statutes ss. 78.411-78.444, which applies to any Nevada corporation, including us, subject to the reporting requirements of Section 12 of the Exchange Act, prohibits an "interested stockholder" from entering into a "combination" with the corporation for three years, unless certain conditions are met. A "combination" includes (a) any merger with a subsidiary of the corporation or an "interested stockholder," or any other corporation which is or after the merger would be, an affiliate or associate of the interested stockholder, (b) any sale, lease, exchange, mortgage, pledge, transfer or other disposition, in one transaction or a series of transactions, to or with an "interested stockholder," having (i) an aggregate market value equal to 5% or more of the aggregate market value of the corporation's assets, (ii) an aggregate market value equal to 5% or more of the aggregate market value of all outstanding shares of the corporation, or (iii) representing 10% or more of the earning power or net income of the corporation, (c) any issuance or transfer of shares of the corporation or its subsidiaries, to the "interested stockholder," having an aggregate market value equal to 5% or more of the aggregate market value of all of the outstanding shares of the corporation, (d) the adoption of any plan or proposal for the liquidation or dissolution of the corporation proposed by the "interested stockholder," (e) certain transactions which would result in increasing the proportionate share of shares of the corporation owned by the "interested stockholder," (f) a recapitalization of the corporation or

(g) the receipt of benefits by an "interested stockholder," except proportionately as a stockholder, of any loans, advances or other financial benefits provided by the corporation. An "interested stockholder" is a person who (i) directly or indirectly owns 10% or more of the voting power of the outstanding voting shares of the corporation or (ii) an affiliate or associate of the corporation which at any time within three years before the date in question was the beneficial owner, directly or indirectly, of 10% or more of the voting power of the then outstanding shares of the corporation.

A corporation to which the Combinations with Interested Stockholders Statute applies may not engage in a "combination" within three years after the interested stockholder acquired its shares, unless the combination or the interested stockholder's acquisition of shares was approved by the board of directors before the interested stockholder acquired the shares. If this approval is not obtained, the combination may be consummated after the three year period expires if either (a)(i) the board of directors of the corporation approved, prior to such person becoming an interested stockholder, the combination or the purchase of shares by the interested stockholder or (ii) the combination is approved by the affirmative vote of holders of a majority of voting power not beneficially owned by the interested stockholder at a meeting called no earlier than three years after the date the interested stockholder became such or (b) the aggregate amount of cash and the market value of consideration other than cash to be received by holders of common shares and holders of any other class or series of shares meets the minimum requirements set forth in Section 78.441 through 78.443, inclusive, and prior to the consummation of the combination, except in limited circumstances, the "interested stockholder" would not have become the beneficial owner of additional voting shares of the corporation.

In addition to the foregoing statute, Nevada has an "Acquisition of Controlling Interest Statute," Nevada Revised Statute ss. 78.378-78.3793, which prohibits an acquiror, under certain circumstances, from voting shares of a target corporation's stock after crossing certain threshold ownership percentages, unless the acquiror obtains the approval of the target corporation's stockholders. The Control Share Acquisition Statute only applies to Nevada corporations with at least 200 stockholders, including at least 100 record stockholders who are Nevada residents, and which do business directly or indirectly in Nevada and whose Articles of Incorporation or Bylaws in effect 10 days following the acquisition of a controlling interest by an acquiror does not prohibit its application. We do not intend to "do business" in Nevada within the meaning of the Control Share Acquisition Statute. Therefore, we believe it is unlikely that the Control Share Acquisition Statute will apply to us. The statute specifies three thresholds: at least one-fifth but less than one-third, at least one-third but less than a majority, and a majority or more, of the outstanding voting power. Once an acquiror crosses one of the above thresholds, shares which it acquired in the transaction taking it over the threshold or within ninety days thereof become "Control Shares" which could be deprived of the right to vote until a majority of the disinterested stockholders restore that right. A special stockholders' meeting may be called at the request of the acquiror to consider the voting rights of the acquiror's shares. If the acquiror requests a special meeting, then the meeting must take place no earlier than 30 days (unless the acquiror makes the meeting be held sooner) and no more than 50 days (unless the acquiror agrees to a later date) after the delivery by the acquiror to the corporation of an information statement which sets forth the range of voting power that the acquiror has acquired or proposes to acquire and certain other information concerning the acquiror and the proposed control share acquisition. If no such request for a stockholders' meeting is made, consideration of the voting rights of the acquiror's shares must be taken at the next special or annual stockholders' meeting. If the stockholders fail to restore voting rights to the acquiror, or if the acquiror fails to timely deliver an information statement to the corporation, then the corporation may, if so provided in its articles or bylaws, call certain of the acquiror's shares for redemption at the average price paid for the control shares by the acquiror. Our articles and bylaws do not currently permit us to redeem an acquiror's shares under these circumstances. The Control Share Acquisition Statute also provides that in the event the stockholders restore full voting rights to a holder of Control Shares that owns a majority of the voting stock, then all other stockholders who do not vote in favor of restoring voting rights to the

Control Shares may demand payment for the "fair value" of their shares (which is generally equal to the highest price paid by the acquiror in the transaction subjecting the acquiror to the statute.)

Transfer Agent and Registrar

The Transfer Agent and Registrar for the common stock is American Stock Transfer & Trust Company.

SELLING SECURITY HOLDERS

The following table sets forth information as of June 30, 1999 with respect to the Common Stock beneficially owned by the Selling Security Holders.

Name and Address of Selling Security Holder(1)	Number of Shares Beneficially Owned(2)	Number of Shares Offered	Before Offering Percentage of Common Stock	After Offering Percentage of Common Stock
AQUILA ENERGY CAPITAL CORPORATION 900 Fannin Street, Suite 1850 Houston, Texas 77010	1,274,345	24,345	4.9%	4.8%
PACIFIC LIFE INSURANCE COMPANY 700 Newport Center Drive Newport Beach, California 92660	1,274,345	24,345	4.9%	4.8%
TCW DEBT AND ROYALTY FUND VI, L.P., a California limited partnership	1,312,451	25,074	5.0%	4.9%

Total:	7,646,072	146,072	23.7%	23.2%

(1) Unless otherwise, the address of each Selling Security Holder is 865 South Figueroa, Suite 1800, Los Angeles, California 90017.

(2) Includes shares issuable upon conversion of the Series A 1999 Convertible Preferred Stock.

PLAN OF DISTRIBUTION

We will receive no proceeds from this offering. We are registering the shares on behalf of the Selling Security Holders. The shares may be sold by the Selling Security Holders or by pledgees, donees, transferees or other successors in interest. We are paying all costs, expenses and fees in connection with the registration of the shares offered hereby. Brokerage commissions, if any, attributable to the sale of shares will be borne by the Selling Security Holders (or their pledgees, donees, transferees or other successors in interest).

Sales of shares may be effected from time to time in transactions (which may include block transactions) on the New York Stock Exchange, in negotiated transactions, or a combination of such methods of sale, at fixed prices which may be changed, at market prices prevailing at the time of sale, or at negotiated prices. The Selling Security Holders may effect such transactions by selling common stock directly to purchasers or to or through broker-dealers which may act as agents or principals. Such broker-dealers may receive compensation in the form of discounts, concessions or commissions from the Selling Security Holders and/or the purchasers of common stock for whom such broker-dealers may act as agents or to whom they sell as principal, or both (which compensation as to a particular broker-dealer might be in excess of customary commissions). To the extent required under the Securities Act, the aggregate amount of Selling Security Holders' shares being offered and the terms of the offering, the names of any such agents, brokers, dealers or underwriters and any applicable commission with respect to a particular offer will be set forth in an accompanying prospectus supplement. Sales of Selling Security Holders' shares may also be made pursuant to Rule 144 under the Securities Act, where applicable.

In order to comply with the securities laws of certain states, if applicable, the shares will be sold in such jurisdictions only through registered or licensed brokers or dealers. In addition, in certain states the shares may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and is complied with.

The Selling Security Holders and any broker-dealers that act in connection with the sale of the shares might be deemed to be "underwriters" within the meaning of Section 2(11) of the Securities Act and any commission received by them and any profit on the resale of the shares of common stock as principal might be deemed to be underwriting discounts and commissions under the Securities Act. The Selling Security Holders may agree to indemnify any agent, dealer or broker-dealer that participates in transactions involving sales of the shares against certain liabilities, including liabilities arising under the Securities Act. Liabilities under the federal securities laws cannot be waived.

Because the Selling Security Holders may be deemed to be "underwriters" within the meaning of Section 2(11) of the Securities Act, the Selling Security Holders will be subject to prospectus delivery requirements under the Securities Act. Furthermore, in the event of a "distribution" of the shares, such Selling Security Holder, any selling broker or dealer and any "affiliated purchasers" may be subject to Regulation M under the Exchange Act, which Regulation would prohibit, with certain exceptions, any such person from bidding for or purchasing any security which is the subject of such distribution until his participation in that distribution is completed. In addition, Regulation M under the Exchange Act prohibits, with certain exceptions, any "stabilizing bid" or "stabilizing purchase" for the purpose of pegging, fixing or stabilizing the price of common stock in connection with this offering.

The Selling Security Holders may be entitled under agreements entered into with us to indemnification against liabilities under the Securities Act.

LEGAL MATTERS

The validity of the issuance of the common stock offered by this prospectus will be passed upon by Locke Liddell & Sapp LLP, Dallas, Texas.

EXPERTS

The estimates as of December 31, 1996, 1997 and 1998 relating to the Company's proved oil and natural gas reserves, future net revenues of oil and natural gas reserves and present value of future net revenues of oil and natural gas reserves included or incorporated by reference herein are based upon reports prepared by Lee Keeling and Associates, Inc. and are included or incorporated by reference herein in reliance upon such reports and upon the authority of such firm as experts in petroleum engineering.

The financial statements as of December 31, 1998 and for the three years in the period then ended, included in the Company's 1998 Form 10-K incorporated by reference in this Registration Statement, have been audited by Arthur Andersen LLP, independent public accountants, as stated in their report appearing herein. Such financial statements are incorporated herein by reference in reliance on such report given upon the authority of such firm as experts in accounting and auditing.
