EXPLANATORY NOTE

Comstock Resources, Inc. has determined that it should include under Item 1 of its Quarterly Report on Form 10-Q for the period ended September 30, 2004 (the "Quarterly Report"), the financial statements of its newly formed non wholly-owned subsidiary guarantor, Bois d'Arc Energy, LLC, for the same period covered by the Quarterly Report. Accordingly, this Amendment to the Quarterly Report being filed by Comstock Resources, Inc. includes such financial statements of Bois d'Arc Energy, LLC. Bois d'Arc Energy, LLC became a guarantor of Comstock Resources, Inc. 6% Senior Notes due 2012 on July 16, 2004. In addition, Item 2 of the Quarterly Report is being amended to correct several typographical errors and to reclass \$515,000 of compensation expense at Bois d'Arc Energy from Minority Interests Liability to Accrued Expenses to conform the presentation in the consolidated financial statement of Comstock Resources, Inc. to the presentations in Bois d'Arc Energy, LLC and is presented in its entirety, as amended.

Other than the foregoing and the new certifications of the Chief Executive Officer and Chief Financial Officer of the registrant, as required by Rule 12b-15 promulgated under the Securities Exchange Act of 1934, as amended, no other changes have been made to the Quarterly Report. This Amendment does not reflect events occurring after the initial filing of the original Quarterly Report filed on November 9, 2004, or modify or update the disclosures presented in the original Quarterly Report, except as discussed above.

COMSTOCK RESOURCES, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2004
(Unaudited)

(1) SIGNIFICANT ACCOUNTING POLICIES -

Basis of Presentation

In management's opinion, the accompanying unaudited consolidated financial statements contain all adjustments (consisting solely of normal recurring adjustments) necessary to present fairly the financial position of Comstock Resources, Inc. and subsidiaries ("Comstock" or the "Company") as of September 30, 2004 and the related results of operations and cash flows for the nine months ended September 30, 2004 and 2003.

The accompanying unaudited consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States have been omitted pursuant to those rules and regulations, although Comstock believes that the disclosures made are adequate to make the information presented not misleading. These unaudited consolidated financial statements should be read in conjunction with the financial statements and notes thereto included in Comstock's Annual Report on Form 10-K for the year ended December 31, 2003.

The results of operations for the nine months ended September 30, 2004 are not necessarily an indication of the results expected for the full year.

Reclassifications

Certain reclassifications have been made to prior periods' financial statements to conform to the current presentation.

Formation of Bois d'Arc Energy

In July 2004, Bois d'Arc Energy, LLC ("Bois d'Arc Energy") was formed by Comstock Offshore, LLC ("Comstock Offshore"), an indirect wholly-owned subsidiary of the Company and Bois d'Arc Resources, ("Bois d'Arc Resources") Ltd., Bois d'Arc Offshore, Ltd. and certain participants in their exploration activities (collectively, the "Bois d'Arc Participants") to replace a joint exploration venture established in 1997 by Comstock Offshore and Bois d'Arc Resources to explore for oil and natural gas in the Gulf of Mexico. Under the joint exploration venture, Bois d'Arc Resources was responsible for generating exploration prospects in the Gulf of Mexico utilizing 3-D seismic data and their extensive geological expertise in the region. Comstock Offshore advanced the funds for the acquisition of 3-D seismic data and leases. Comstock Offshore was reimbursed for all advanced costs and was entitled to a non-promoted working interest in each prospect generated. For each successful discovery well drilled pursuant to the joint exploration venture, Comstock issued to the two principals of Bois d'Arc Resources warrants exercisable for the purchase of shares of Comstock's common stock.

In July 2004, each of the Bois d'Arc Participants and Comstock Offshore contributed to Bois d'Arc Energy substantially all of their Gulf of Mexico related assets and assigned their related liabilities, including certain debt, in exchange for equity interests in Bois d'Arc Energy. The equity interests issued in exchange for the contributions were determined by using a valuation of the properties contributed by the particular contributor relative to the value of the properties contributed by all contributors. Comstock Offshore contributed its interests in its Gulf of Mexico properties and assigned to Bois d'Arc Energy \$83.2 million of related debt in exchange for an approximately 59.9% ownership interest in Bois d'Arc Energy (29,935,761 LLC units out of 50,000,000 LLC units issued). The Bois d'Arc Participants contributed their offshore oil and natural gas properties as well as ownership of Bois d'Arc Offshore, Ltd., the operator of the properties, and assigned to Bois d'Arc Energy \$28.2 million of related liabilities in exchange for an approximately

COMSTOCK RESOURCES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(continued)

40.1% aggregate ownership interest in Bois d'Arc Energy. The Bois d'Arc Participants also received \$27.6 million in cash to equalize the amount that Comstock Offshore's debt exceeded its proportional share of the liabilities assigned. Bois d'Arc Energy also reimbursed Comstock Offshore \$12.7 million and Bois d'Arc \$0.8 million for advances made under the exploration joint venture for undrilled prospects.

The following table sets forth the assets contributed and the liabilities assumed on the date of the formation of Bois d'Arc Energy:

	Comstock Offshore	Minority Interests	Combined
		(In thousands)	
Cash and cash equivalents	\$ 6	\$ 17,024	\$ 17,030
Other current assets	—	21,992	21,992
Property and equipment, net	362,959	113,262	476,221
Current liabilities and bank loan	—	(66,788)	(66,788)
Payable to Comstock Resources	(83,177)	—	(83,177)
Reserve for future abandonment	(18,458)	(7,985)	(26,443)
Cash distributed	(12,742)	(28,342)	(41,084)
Net contribution	<u>\$248,588</u>	<u>\$ 49,163</u>	<u>\$297,751</u>

The accompanying consolidated financial statements include the operations of Bois d'Arc Energy beginning in July 2004 when Bois d'Arc Energy was formed. The 40.1% of Bois d'Arc Energy not owned by Comstock has been reflected in the accompanying consolidated financial statements as a minority interests liability and as minority interests in net income. The following table sets forth the changes in the minority interests balance attributable to the 40.1% of Bois d'Arc Energy not owned by Comstock:

	Three Months and Nine Months Ended September 30, 2004
	(In thousands)
Contributions of assets and assumption of liabilities by minority interest owners	\$49,163
Minority interests in net income of Bois d'Arc Energy	3,221
Minority interests liability	<u>\$52,384</u>

COMSTOCK RESOURCES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(continued)

Set forth in the following table is certain unaudited pro forma financial information for the nine months ended September 30, 2004 and 2003. This information has been prepared assuming that the formation of Bois d'Arc Energy was consummated on January 1, 2003 and is based on estimates and assumptions deemed appropriate by Comstock. A pro forma adjustment has been made to add back the formation costs of \$1.6 million that were included in the operating results for the nine months ended September 30, 2004. The pro forma information is presented for illustrative purposes only. If the transactions had occurred in the past, Comstock's operating results might have been different from those presented in the following table. The pro forma information should not be relied upon as an indication of the operating results that Comstock would have achieved if the transactions had occurred on January 1, 2003. The pro forma information also should not be used as an indication of the future results that Comstock will achieve after the transaction.

	For the Nine Months Ended September 30,	
	2004	2003

Diluted	<u>\$ 0.88</u>	<u>\$ 1.48</u>

Formation Costs

The consolidated financial statements include \$1.6 million of costs incurred in connection with the formation of Bois d'Arc Energy including a termination fee of \$1.2 million for the cancellation of a service agreement for accounting and administrative services provided to Bois d'Arc Offshore Ltd. The fee is payable in monthly installments over a two year period beginning October 2004.

Income Taxes

Deferred income taxes are provided to reflect the future tax consequences or benefits of differences between the tax basis of assets and liabilities and their reported amounts in the financial statements using enacted tax rates.

COMSTOCK RESOURCES, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(continued)

The following is an analysis of the consolidated income tax expense:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2004	2003	2004	2003
	(In thousands)			
Current	\$ 1,075	\$ —	\$ 4,389	\$ —
Deferred	5,854	6,957	13,054	25,639
Provision for Income Taxes	<u>\$ 6,929</u>	<u>\$ 6,957</u>	<u>\$ 17,443</u>	<u>\$ 25,639</u>

Stock-Based Compensation

Prior to January 1, 2004, Comstock accounted for employee stock-based compensation using the intrinsic value method prescribed in Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees" ("APB 25"). Under the intrinsic method, compensation cost for stock options is measured as the excess, if any, of the fair value of the Company's common stock at the date of the grant over the amount an employee must pay to acquire the common stock. Effective January 1, 2004, the Company changed its method of accounting for employee stock-based compensation to the preferable fair value based method prescribed in Statement of Financial Accounting Standards No. 123, "Accounting for Stock-Based Compensation" ("SFAS 123"). Under the fair value based method, compensation cost is measured at the grant date based on the fair value of the award and is recognized over the award vesting period. The fair value of each award is estimated as of the date of grant using the Black-Scholes options pricing model. Under the modified prospective transition method selected by Comstock as described in Statement of Financial Accounting Standards No. 148, "Accounting for Stock-Based Compensation — Transition and Disclosure," stock-based compensation expense recognized for the three months and nine months ended September 30, 2004, is the same as that which would have been recognized had the fair value method of SFAS 123 been applied from its original effective date. During the three months and nine months ended September 30, 2004, the Company recorded \$1.1 million and \$3.5 million, respectively, in stock-based compensation expense in general and administrative expenses.

COMSTOCK RESOURCES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(continued)

In accordance with the modified prospective transition method, results for years prior to 2004 have not been restated. For the three months and nine months ended September 30, 2003, the Company accounted for stock-based compensation for employees under APB 25 and related interpretations, under which no compensation cost was recognized for employee stock options. If compensation costs had been determined in accordance with SFAS 123, the Company's net income and earnings per share would approximate the following pro forma amounts:

	For the Three Months Ended September 30, 2003	For the Nine Months Ended September 30, 2003
	(In thousands, except per share amounts)	
Net income, as reported	\$12,920	\$48,290
Add stock-based employee compensation expense included in reported net income, net of income taxes	78	155
Deduct total stock-based employee compensation expense determined under fair-value-based method for all rewards, net of income taxes	(463)	(1,360)
Pro forma net income	\$12,535	\$47,085
Basic earnings per share: As reported	\$ 0.38	\$ 1.52
Pro forma	\$ 0.37	\$ 1.48
Diluted earnings per share: As reported	\$ 0.36	\$ 1.38
Pro forma	\$ 0.35	\$ 1.35

Asset Retirement Obligations

Comstock adopted Statement of Financial Accounting Standards No. 143, "Accounting for Asset Retirement Obligations" ("SFAS 143"), on January 1, 2003. This statement required Comstock to record a liability in the period in which an asset retirement obligation ("ARO") is incurred, in an amount equal to the discounted estimated fair value of the obligation that is capitalized. Thereafter, each quarter, this liability is accreted up to the final retirement cost. The adoption of SFAS 143 on January 1, 2003 resulted in a cumulative effect adjustment to record (i) a \$3.7 million decrease in the carrying value of oil and gas properties, (ii) a \$3.3 million decrease in accumulated depreciation, depletion, and amortization, (iii) a \$1.5 million decrease in reserve for future abandonment, and (iv) a gain of \$675,000, net of income taxes, which was reflected as the cumulative effect of a change in accounting principle.

Comstock's primary asset retirement obligations relate to future plugging and abandonment expenses on its oil and gas properties and related facilities disposal. As of September 30, 2004, Comstock had \$1.7 million held in an escrow account from which funds are released only for reimbursement of plugging and abandonment expenses on certain offshore oil and gas properties. This amount is included in Other Assets in the consolidated balance sheet. The following table summarizes the changes in Comstock's total estimated future abandonment liability during the nine months ended September 30, 2004 and 2003:

COMSTOCK RESOURCES, INC. AND SUBSIDIARIES

Derivative Instruments and Hedging Activities

Comstock periodically uses swaps, floors and collars to hedge oil and natural gas prices and interest rates. Swaps are settled monthly based on differences between the prices specified in the instruments and the settlement prices of futures contracts. Generally, when the applicable settlement price is less than the price specified in the contract, Comstock receives a settlement from the counter party based on the difference multiplied by the volume or amounts hedged. Similarly, when the applicable settlement price exceeds the price specified in the contract, Comstock pays the counter party based on the difference. Comstock generally receives a settlement from the counter party for floors when the applicable settlement price is less than the price specified in the contract, which is based on the difference multiplied by the volumes hedged. For collars, generally Comstock receives a settlement from the counter party when the settlement price is below the floor and pays a settlement to the counter party when the settlement price exceeds the cap. No settlement occurs when the settlement price falls between the floor and cap.

COMSTOCK RESOURCES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(continued)

The following table sets out the derivative financial instruments, outstanding at September 30, 2004, which are held for natural gas price risk management:

Period Beginning	Period Ending	Volume MMBtu	Delivery Location	Type of Instrument	Floor Price	Ceiling Price
January 1, 2005	December 31, 2005	3,072,000	Henry Hub	Collar	\$4.50	\$10.30
January 1, 2005	December 31, 2005	2,400,000	Houston Ship Channel	Collar	\$4.50	\$10.00
January 1, 2006	December 31, 2006	3,072,000	Henry Hub	Collar	\$4.50	\$ 9.02
January 1, 2006	December 31, 2006	2,400,000	Houston Ship Channel	Collar	\$4.50	\$ 8.25

The fair market value of these derivative financial instruments at September 30, 2004, was a loss of \$553,000 which is reflected as a liability in the accompanying consolidated financial statements. Comstock has not designated these instruments as cash flow hedges and accordingly the loss on derivatives of \$553,000 is reflected in the consolidated statements of operations for the three months and nine months ended September 30, 2004.

Comstock had an interest rate swap agreement covering \$25.0 million of its floating rate debt in place during the three months and nine months ended September 30, 2003, which resulted in a realized loss of \$36,000 and \$72,000, respectively, which was included in interest expense in the related periods.

	<u>\$ 381,000</u>

COMSTOCK RESOURCES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(continued)

Comstock had \$220.0 million in principal amount of 11¼% Senior Notes due 2007 (the "1999 Notes") outstanding on January 1, 2004. Pursuant to a tender offer, on February 25, 2004, Comstock repurchased \$197.7 million in principal amount of the 1999 Notes for \$212.2 million plus accrued interest. On May 1, 2004, Comstock redeemed the remaining \$22.3 million in principal amount of the 1999 Notes outstanding for \$23.6 million plus accrued interest. The early extinguishment of the 1999 Notes resulted in a loss of \$19.6 million which was comprised of the premium paid for repurchase of the 1999 Notes together with the write-off of unamortized debt issuance costs related to the 1999 Notes.

In connection with the repurchase of the 1999 Notes, Comstock sold \$175.0 million of its senior notes in an underwritten public offering. The new senior notes are due March 1, 2012 and bear interest at 6%, which is payable semiannually on March 1 and September 1, commencing September 1, 2004. The senior notes are unsecured obligations of the Company and are currently guaranteed by all of its subsidiaries.

On February 25, 2004, Comstock also entered into a new \$400.0 million bank credit facility with Bank of Montreal, as the administrative agent. The new credit facility is a four-year revolving credit commitment that matures on February 25, 2008. Borrowings under the new credit facility are limited to a borrowing base that was \$300.0 million as of September 30, 2004. Borrowings under the new credit facility were used to refinance amounts outstanding under the prior bank credit facility and to fund the repurchase of the 1999 Notes.

Indebtedness under the new credit facility is secured by substantially all of Comstock's and its subsidiaries' assets and is guaranteed by all of the subsidiaries. The new credit facility is subject to borrowing base availability, which is redetermined semiannually based on the banks' estimates of the future net cash flows of the Company's oil and natural gas properties. The borrowing base may be affected by the performance of Comstock's properties and changes in oil and natural gas prices. The determination of the borrowing base is at the sole discretion of the administrative agent and the bank group. Borrowings under the new credit facility bear interest, based on the utilization of the borrowing base, at Comstock's option at either LIBOR plus 1.25% to 1.75% or the base rate (which is the higher of the prime rate or the federal funds rate) plus 0% to 0.5%. A commitment fee of 0.375% is payable on the unused borrowing base. The new credit facility contains covenants that, among other things, restrict the payment of cash dividends, limit the amount of consolidated debt that Comstock may incur and limit the Company's ability to make certain loans and investments. The only financial covenants are the maintenance of a current ratio and maintenance of a minimum tangible net worth. The Company was in compliance with these covenants as of September 30, 2004.

Bois d'Arc Energy and each of Comstock's wholly owned subsidiaries are guarantors of Comstock's 6% senior notes due 2012 and the new bank credit facility.

(3) SUBSEQUENT EVENT -

On October 4, 2004, Comstock acquired producing oil and gas properties in the East Texas, Arkoma, Anadarko and San Juan basins from Ovation Energy, L.P. for \$62.0 million. The properties acquired had estimated proved reserves of approximately 42.3 billion cubic feet of gas equivalent and include 165 active wells of which 69 will be operated by the Company. The acquisition was funded by borrowings under the Company's bank credit facility.

On October 4, 2004, Bois d'Arc Energy filed a registration statement on Form S-1 with the Securities and Exchange Commission related to a proposed underwritten initial public offering of \$150.0 million of its common stock. The proceeds of this offering would be utilized to repay certain indebtedness to Comstock. At the date of this report, the Form S-1 is not effective.

INDEPENDENT ACCOUNTANTS' REVIEW REPORT

We have reviewed the consolidated balance sheet of Comstock Resources, Inc. and subsidiaries (a Nevada corporation) (the Company) as of September 30, 2004, and the related consolidated statements of income for the three-month and nine-month periods ended September 30, 2004 and 2003, and the condensed consolidated statements of cash flows for the nine-month periods ended September 30, 2004 and 2003. These financial statements are the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the condensed consolidated interim financial statements referred to above for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of Comstock Resources, Inc. and subsidiaries as of December 31, 2003, and the related consolidated statements of income, shareholders' equity, and cash flows for the year then ended, not presented herein, and in our report dated February 26, 2004 we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet as of December 31, 2003, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

BOIS D'ARC ENERGY, LLC

NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2004

(Unaudited)

(1) Organization

Bois d'Arc Energy, LLC ("Bois d'Arc Energy" or the "Company") is engaged in oil and natural gas exploration, development and production in state and federal waters in the Gulf of Mexico. The Company was formed on July 16, 2004 ("Inception") by Bois d'Arc Resources, Ltd., Bois d'Arc Offshore, Ltd. and certain participants in their exploration activities (collectively, the "Bois d'Arc Participants") and Comstock Offshore, LLC ("Comstock Offshore"), an indirect wholly-owned subsidiary of Comstock Resources, Inc. ("Comstock"). The Bois d'Arc Participants and Comstock Offshore are collectively referred to as the "Bois d'Arc Energy Predecessors."

In December 1997, Comstock Offshore acquired from a predecessor of Bois d'Arc Resources, Ltd. and other interest owners certain offshore oil and natural gas properties in the Gulf of Mexico. Subsequent to the acquisition, the predecessor to Bois d'Arc Resources, Ltd. was dissolved and Bois d'Arc Resources, Ltd. and Bois d'Arc Offshore, Ltd. (collectively, "Bois d'Arc") were created. In connection with the December 1997 acquisition, Comstock Offshore and Bois d'Arc established a joint exploration venture to explore for oil and natural gas in the Gulf of Mexico. Under the joint exploration venture, Bois d'Arc was responsible for generating exploration prospects in the Gulf of Mexico utilizing 3-D seismic data and their extensive geological expertise in the region. Comstock Offshore advanced the funds for the acquisition of 3-D seismic data and leases. Comstock Offshore was reimbursed for all advanced costs and was entitled to a non-promoted working interest in each prospect generated. For each successful discovery well drilled pursuant to the joint exploration venture, Comstock issued to the two principals of Bois d'Arc warrants exercisable for the purchase of shares of Comstock's common stock.

On July 16, 2004, Bois d'Arc Energy was formed to replace the joint exploration venture. Each of the Bois d'Arc Participants and Comstock Offshore contributed to Bois d'Arc Energy substantially all of their Gulf of Mexico related assets and assigned to the Company their related liabilities, including certain debt, in exchange for equity interests in Bois d'Arc Energy. The equity interests issued in exchange for the contributions were determined by using a valuation of the properties contributed by the particular contributor relative to the value of the properties contributed by all contributors. Comstock Offshore contributed its interests in its Gulf of Mexico properties and assigned to Bois d'Arc Energy \$83.2 million of related debt in exchange for an approximately 59.9% ownership interest in Bois d'Arc Energy. The Bois d'Arc Participants collectively contributed their offshore oil and natural gas properties as well as ownership of Bois d'Arc Offshore, Ltd., the operator of the properties, and assigned to Bois d'Arc Energy \$28.2 million of related liabilities in exchange for an approximately 40.1% aggregate ownership interest in Bois d'Arc Energy. The Bois d'Arc Participants also received \$27.6 million in cash to equalize the amount that Comstock Offshore's debt exceeded its proportional share of the liabilities assigned. Bois d'Arc Energy also reimbursed Comstock Offshore \$12.7 million and Bois d'Arc \$0.8 million for advances made under the joint exploration venture for undrilled prospects.

BOIS D'ARC ENERGY, LLC**NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS***(continued)*

The following table presents the assets and liabilities of the Bois d'Arc Energy Predecessors that were contributed to Bois d'Arc Energy:

	Contributed to Bois d'Arc Energy
Cash	\$ 17,030
Other current assets	21,992
Property and equipment, net	476,221
Total assets	515,243
Current liabilities and bank loan	(66,788)
Payable to parent company	(83,177)
Reserve for future abandonment	(26,443)
Total liabilities	(176,408)
Net assets	338,835
Cash distributed	(41,084)
Net contribution	\$ 297,751

(2) Summary of Significant Accounting Policies

Accounting policies used by Bois d'Arc Energy reflect oil and gas industry practices and conform to accounting principles generally accepted in the United States of America.

Basis of Presentation

In management's opinion, the accompanying unaudited consolidated interim financial statements contain all adjustments (consisting solely of normal recurring adjustments) necessary to present fairly the financial position of Bois d'Arc Energy as of September 30, 2004 and the related results of operations and cash flows for the period from Inception to September 30, 2004.

The accompanying unaudited consolidated interim financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States have been omitted pursuant to those rules and regulations, although Bois d'Arc Energy believes that the disclosures made are adequate to make the information presented not misleading.

The results of operations for the period from Inception to September 30, 2004 are not necessarily an indication of the results expected for the full year.

BOIS D'ARC ENERGY, LLC**NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS***(continued)****Asset Retirement Obligations***

Bois d'Arc Energy's primary asset retirement obligations relate to future plugging and abandonment expenses on its oil and gas properties and related facilities disposal. The following table summarizes the changes in Bois d'Arc Energy's total estimated liability:

	(In thousands)
Contributed on July 16, 2004	\$26,443
Accretion expense	421
New wells placed on production	250
Liabilities settled	(591)
Future abandonment liability — end of period	<u>\$26,523</u>

General and Administrative Expense

General and administrative expenses include \$60,000 paid by Bois d'Arc Energy to Comstock for accounting services under a service agreement.

Income Taxes

Bois d'Arc Energy is a limited liability company which passes through its taxable income to its owners. Accordingly, no provision for federal or state corporate income taxes has been made in the accompanying unaudited consolidated interim financial statements.

New Accounting Standards

There are no new accounting standards that are expected to have an impact on the Interim Consolidated Financial Statements.

(3) Payable to Parent Company

In connection with the formation of the Company, Comstock provided a revolving line of credit to Bois d'Arc Energy with a maximum outstanding amount of \$200.0 million. Approximately \$152.3 million was borrowed on the line of credit to repay the liabilities assigned to the Company at its formation, including the \$83.2 million payable to Comstock, \$13.5 million of advances made by Comstock Offshore and Bois d'Arc under the joint exploration venture and \$55.7 million to refinance the bank loan and other obligations of the Bois d'Arc Participants. Borrowings under the credit facility bear interest at the Company's option at either LIBOR plus 2% or the base rate (which is the higher of the prime rate or the federal funds rate) plus 0.75%. The credit facility matures on December 31, 2005. Interest expense of \$1.1 million was charged by Comstock under the credit facility during the period from Inception to September 30, 2004.

Bois d'Arc Energy expects to refinance the amounts outstanding under the credit facility provided by Comstock. The refinancing may include an initial public offering of its common stock, depending on market conditions and various other factors. If Bois d'Arc Energy does not complete a financing transaction which generates sufficient proceeds to repay all of the amounts outstanding under the line of credit with Comstock by February 28, 2005 (or such later date as is determined by Bois d'Arc Energy's board of managers), Bois d'Arc Energy will be dissolved and liquidated in a manner designed to put the contributors in a position as near as possible to the same economic position that the contributors would have been in if the contributors

BOIS D'ARC ENERGY, LLC

NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS

(continued)

had never formed Bois d'Arc Energy and instead had continued to own their portion of the respective properties individually.

(4) Long-term Incentive Plan

On July 16, 2004, the unit holders approved the 2004 Long-term Incentive Plan (the "Incentive Plan") for the management including officers, directors, employees and consultants. The Incentive Plan authorizes the grant of non-qualified options and incentive options to purchase Class B units and the grant of restricted Class C units. As of September 30, 2004, options to purchase 2,800,000 Class B units have been awarded under the Incentive Plan. These options have an exercise price of \$6.00 per unit and vest over a five year period with service to Bois d'Arc Energy. Under the Incentive Plan, certain officers and managerial employees were granted a right to receive Class C units without cost to the employee. The restrictions on the Class C units lapse over a five year period. The Class C units are entitled to participate in the appreciation of the Company's value and can convert to a maximum of one-half of a Class B unit. As of September 30, 2004, restricted Class C unit awards were outstanding for 4,290,000 units. These Class C units could convert to a maximum of 2,145,000 Class B units based on the future value of the Company.

Bois d'Arc Energy follows the fair value based method prescribed in Statement of Financial Accounting Standards No. 123, "Accounting for Stock-Based Compensation," in accounting for equity-based compensation. Under the fair value based method, compensation cost is measured at the grant date based on the fair value of the award and is recognized over the award vesting period. The fair value of each option award is estimated at the date of grant using the Black-Scholes options pricing model. The fair value of the Class B unit options was determined to be \$2.90 per unit, and the fair value of the Class C unit awards was determined to be \$3.00 per unit. In 2004, Bois d'Arc provided \$0.7 million in equity-based compensation expense in general and administrative expenses.

(5) Commitments and Contingencies

Guarantees of Comstock Debt

In consideration for the \$200.0 million credit facility being provided by Comstock, Bois d'Arc Energy and each of its subsidiaries agreed to become guarantors of Comstock's 6% senior notes due 2012, of which \$175.0 million principal amount is outstanding. Bois d'Arc Energy is also a guarantor of and has agreed to pledge substantially all of its assets with respect to Comstock's \$400.0 million bank credit facility. The bank credit facility is a four-year revolving credit commitment that matures on February 25, 2008. At September 30, 2004, Comstock had \$206.0 million outstanding under this credit facility. Borrowings under the credit facility are limited to a borrowing base that was \$300.0 million as of September 30, 2004.

Contingencies

From time to time, Bois d'Arc Energy is involved in certain litigation that arises in the normal course of its operations. The Company does not believe the resolution of these matters will have a material effect on the Company's financial position or results of operations.

BOIS D'ARC ENERGY, LLC

NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS

(continued)

(6) Related Party Transactions

An entity owned by the spouse of Wayne L. Laufer, one of the principals of Bois d'Arc, provided accounting services to Bois d'Arc under a service agreement. In connection with the formation of Bois d'Arc Energy, this agreement was terminated which resulted in a termination fee of \$1.2 million that is payable in monthly installments over a two year period beginning October 2004. A provision for termination fee has been included in formation costs in the accompanying unaudited consolidated financial statements. Bois d'Arc Energy entered into a new service agreement with Comstock pursuant to which Comstock provides accounting services for \$240,000 annually beginning in July 2004.

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This report contains forward-looking statements that involve risks and uncertainties that are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Actual results may differ materially from those anticipated in our forward-looking statements due to many factors. The following discussion should be read in conjunction with the consolidated financial statements and notes thereto included in this report and in our annual report filed on Form 10-K for the year ended December 31, 2003.

Formation of Bois d'Arc Energy

In December 1997, we established a joint exploration venture with Bois d'Arc Resources, Ltd. ("Bois d'Arc") to explore for oil and natural gas in the Gulf of Mexico. Under the joint exploration venture, Bois d'Arc was responsible for generating exploration prospects in the Gulf of Mexico utilizing 3-D seismic data and their extensive geological expertise in the region. We advanced the funds for the acquisition of 3-D seismic data and leases. We were reimbursed for all advanced costs and were entitled to a non-promoted working interest in each prospect generated. For each successful discovery well drilled pursuant to the joint exploration venture, we issued to the two principals of Bois d'Arc warrants exercisable for the purchase of shares of our common stock. In July 2004, we formed Bois d'Arc Energy, LLC ("Bois d'Arc Energy") with Bois d'Arc and certain participants in their exploration activities, which are collectively referred to as the "Bois d'Arc Participants" to replace the joint exploration venture. We and each of the Bois d'Arc Participants contributed substantially all of our Gulf of Mexico related assets and assigned our related liabilities, including certain debt, in exchange for equity interests in Bois d'Arc Energy. We contributed interests in our offshore oil and natural gas properties and assigned \$83.2 million of related debt in exchange for an approximately 59.9% ownership interest in Bois d'Arc Energy. The Bois d'Arc Participants contributed their offshore oil and natural gas properties as well as ownership of Bois d'Arc Offshore, Ltd., the operator of the properties, and assigned to Bois d'Arc Energy \$28.2 million of related liabilities in exchange for an approximately 40.1% aggregate ownership interest in Bois d'Arc Energy. The Bois d'Arc Participants also received \$27.6 million in cash to equalize the amount that our debt exceeded our proportional share of the liabilities assigned. We were also reimbursed \$12.7 million for advances made under the joint exploration venture for undrilled prospects. Bois d'Arc Energy's operations are included in our consolidated financial statements, beginning in July 2004.

Results of Operations

The following table reflects certain summary operating data for the periods presented:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2004	2003	2004	2003
Net Production Data:				
Oil (Mbbbls)	554	377	1,416	1,174
Natural gas (MMcf)	9,383	9,080	26,201	25,912
Natural gas equivalent (Mmcfe)	12,707	11,343	34,697	32,954
Average Sales Price:				
Oil (per Bbl)	\$ 42.46	\$ 29.50	\$ 38.67	\$ 30.79
Natural gas (per Mcf)	5.85	5.04	5.76	5.65
Average equivalent price (per Mcfe)	6.17	5.01	5.93	5.54
Expenses (\$ per Mcfe):				
Oil and gas operating (1)	\$ 1.21	\$ 1.04	\$ 1.17	\$ 1.02
Depreciation, depletion and amortization (2)	1.57	1.31	1.46	1.34

(1) Includes lease operating costs and production and ad valorem taxes.

(2) Represents depreciation, depletion and amortization of oil and gas properties only.

[Table of Contents](#)

Revenues -

Our oil and gas sales increased \$21.5 million (38%) in the third quarter of 2004 to \$78.4 million, from \$56.9 million in 2003's third quarter due to an increase in our production and higher crude oil and natural gas prices. Our average natural gas price increased by 16% and our average crude oil price increased by 44% in the third quarter of 2004 as compared to the same period in 2003. Our production in the third quarter of 2004 increased by 12% over the third quarter of 2003 due to new production from our drilling activity and the properties contributed by the Bois d'Arc Participants on the formation of Bois d'Arc Energy. For the first nine months of 2004, our oil and gas sales increased \$23.0 million (13%) to \$205.6 million from \$182.6 million for the nine months ended September 30, 2003. The increase is primarily attributable to a 5% increase in our production and a 26% increase in our average crude oil price and 2% increase in our average natural gas price.

Costs and Expenses -

Our oil and gas operating expenses, including production taxes, increased \$3.6 million (30%) to \$15.4 million in the third quarter of 2004 from \$11.8 million in the third quarter of 2003. Oil and gas operating expenses per equivalent Mcf produced increased \$0.17 to \$1.21 in the third quarter of 2004 from \$1.04 in the third quarter of 2003. Oil and gas operating costs for the nine months ended September 30, 2004 increased \$6.8 million (20%) to \$40.5 million from \$33.7 million for the nine months ended September 30, 2003. Oil and gas operating expenses per equivalent Mcf produced increased \$0.15 to \$1.17 for the nine months ended September 30, 2004, from \$1.02 for the same period in 2003. The increase in operating expenses in 2004 is primarily related to the properties contributed by the Bois d'Arc Participants. The higher costs per Mcf equivalent unit produced are partially related to lost production during September 2004 in the Gulf of Mexico, which was shut-in due to hurricane activity.

In the third quarter of 2004, we had a \$9.4 million provision for exploration expense as compared to \$1.2 million in 2003's third quarter. The provision in the third quarter of 2004 primarily relates to three exploratory dry holes drilled by Bois d'Arc Energy in the Gulf of Mexico together with three dry holes drilled in our South Texas exploration region. For the nine months ended September 30, 2004, we had a provision for exploration expense totaling \$14.6 million as compared to \$3.4 million in the same period in 2003. The 2004 provision primarily related to ten exploratory dry holes combined with expenditures relating to the acquisition of seismic data in 2004.

Depreciation, depletion and amortization ("DD&A") increased \$5.3 million (35%) to \$20.5 million in the third quarter of 2004 from \$15.2 million in the third quarter of 2003 due primarily to the 12% increase in our production. DD&A per equivalent Mcf produced for the three months ended September 30, 2004 was \$1.57, as compared to \$1.31 for the quarter ended September 30, 2003. For the nine months ended September 30, 2004, DD&A increased \$7.2 million (16%) to \$52.0 million from \$44.9 million for the nine months ended September 30, 2003. The increase is due to the 5% increase in production and our higher average amortization rate. DD&A per equivalent Mcf increased by \$0.12 to \$1.46 for the nine months ended September 30, 2004 from \$1.34 for the nine months ended September 30, 2003.

General and administrative expenses, which are reported net of overhead reimbursements, of \$3.7 million for the third quarter of 2004 were 143% higher than general and administrative expenses of \$1.5 million for the third quarter of 2003. For the first nine months of 2004, general and administrative expenses increased to \$9.6 million from \$5.0 million for the nine months ended September 30, 2003. The increases are primarily related to stock-based compensation expense that we recorded in the three months and nine months ended September 30, 2004 of \$1.1 million and \$3.5 million, respectively, resulting from our adoption of a fair value-based method of accounting for employee stock-based compensation including our employee stock options on January 1, 2004. Beginning in July 2004, we also are including general and administrative expenses of Bois d'Arc Energy which totaled \$0.8 million for the three months ended September 30, 2004.

[Table of Contents](#)

Interest expense decreased \$2.6 million (35%) to \$4.8 million for the third quarter of 2004 from \$7.4 million in the third quarter of 2003. The decrease is related to the early retirement of \$220.0 million of principal amount of our 11¼% senior notes which were refinanced with \$175.0 million new 6¾% senior notes along with borrowings under a new bank credit facility. The average interest rate on the outstanding borrowings under the bank credit facility increased to 3.0% in the third quarter of 2004 as compared to 2.9% in the third quarter of 2003. Interest expense for the nine months ended September 30, 2004 decreased \$7.0 million (31%) to \$15.6 million from \$22.6 million for the nine months ended September 30, 2003. The decrease is also attributable to refinancing of the 11¼% senior notes. The average interest rate under the bank credit facility decreased to 2.8% in the nine months of 2004 as compared to 3.1% in the nine months of 2003.

We reported net income of \$12.3 million for the three months ended September 30, 2004, as compared to net income of \$12.9 million for the three months ended September 30, 2003. Net income per share for the third quarter of 2004 was \$0.34 on weighted average diluted shares outstanding of 36.1 million as compared to \$0.36 for the third quarter of 2003 on weighted average diluted shares outstanding of 35.4 million. Net income for the nine months ended September 30, 2004 was \$31.0 million, as compared to net income of \$47.7 million for the nine months ended September 30, 2003. Net income per diluted share for the nine months ended September 30, 2004, was \$0.86 as compared to \$1.38 for the nine months ended September 30, 2003. Net income for the nine months ended September 30, 2003, included \$0.7 million in income (\$0.02 per share) related to the cumulative effect of a change in our accounting for future abandonment cost for our oil and gas properties. The 2004 results include a charge of \$19.6 million (\$12.5 million after income taxes or \$0.35 per diluted share) relating to the early retirement of our 11¼% senior notes.

Critical Accounting Policies

The information included in “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Critical Accounting Policies” in our annual report filed on Form 10-K for the year ended December 31, 2003 is incorporated herein by reference. There have been no material changes to our accounting policies during the nine months ended September 30, 2004 with the exception of our adoption of a fair value-based method of accounting for stock-based compensation including employee stock options as discussed in Note 1 to the accompanying financial statements.

Liquidity and Capital Resources

Funding for our activities has historically been provided by our operating cash flow, debt or equity financings or asset dispositions. For the nine months ended September 30, 2004, our net cash flow provided by operating activities totaled \$139.5 million and we received proceeds of \$175.0 million from a public offering of eight-year senior notes. We also increased the debt outstanding under our bank credit facility by \$120.0 million.

Our primary needs for capital, in addition to funding our ongoing operations, relate to the acquisition, development and exploration of our oil and gas properties and the repayment of our debt. In the first nine months of 2004, we incurred capital expenditures of \$111.5 million primarily for our development and exploration activities and we retired our 11¼% senior notes.

[Table of Contents](#)

The following table summarizes our capital expenditure activity excluding the formation of Bois d'Arc Energy for the nine months ended September 30, 2004 and 2003:

	Nine Months Ended September 30,	
	2004	2003
	(In thousands)	
Acquisitions	\$ 716	\$ 684
Leasehold costs	4,507	4,140
Development drilling	49,478	15,097
Exploratory drilling	36,464	29,399
Offshore production facilities	7,626	3,258
Workovers and recompletions	12,219	7,977
Other	503	1,604
	<u>\$ 111,513</u>	<u>\$ 62,159</u>

The timing of most of our capital expenditures is discretionary because we have no material long-term capital expenditure commitments. Consequently, we have a significant degree of flexibility to adjust the level of our capital expenditures as circumstances warrant. We spent \$110.3 million and \$59.5 million on development and exploration activities in the nine months ended September 30, 2004 and 2003, respectively. We have budgeted to spend approximately \$52.0 million for development and exploration projects in the last three months of 2004 including Bois d'Arc Energy's capital expenditures. We expect to use internally generated cash flow to fund our development and exploration activity.

On October 4, 2004, we acquired producing oil and gas properties in the East Texas, Arkoma, Anadarko and San Juan basins from Ovation Energy, L.P. for \$62.0 million. We do not have a specific budget for any additional acquisitions in 2004 since the timing and size of acquisitions are not predictable. We intend to use borrowings under our bank credit facility, or other debt or equity financings to the extent available, to finance significant acquisitions. The availability and attractiveness of these sources of financing will depend upon a number of factors, some of which will relate to our financial condition and performance and some of which will be beyond our control, such as prevailing interest rates, oil and natural gas prices and other market conditions.

We had \$220.0 million in principal amount of our 11¼% senior notes which were due in 2007 (the "1999 Notes") outstanding on January 1, 2004. Pursuant to a tender offer, on February 25, 2004, we repurchased \$197.7 million in principal amount of the 1999 Notes for \$212.2 million plus accrued interest. On May 1, 2004, we redeemed the remaining \$22.3 million in principal amount of the 1999 Notes outstanding for \$23.6 million plus accrued interest. The early extinguishment of the 1999 Notes resulted in a loss of \$19.6 million which was comprised of the premium paid for the repurchase of the 1999 Notes together with the write-off of unamortized debt issuance costs related to the 1999 Notes.

In connection with the repurchase of the 1999 Notes, we sold \$175.0 million of senior notes in an underwritten public offering. The new senior notes are due March 1, 2012 and bear interest at 6½%, which is payable semiannually on March 1 and September 1, commencing September 1, 2004. The senior notes are unsecured obligations and are currently guaranteed by all of our subsidiaries.

On February 25, 2004, we also entered into a new \$400.0 million bank credit facility with Bank of Montreal, as the administrative agent. The new bank credit facility is a four-year revolving credit commitment that matures on February 25, 2008. Borrowings under the new bank credit facility are limited to a borrowing base that was set at \$300.0 million upon the retirement of the 1999 Notes. Borrowings under the new bank credit facility were used to refinance amounts outstanding under our prior bank credit facility and to fund the repurchase of the 1999 Notes.

Table of Contents

Indebtedness under the new bank credit facility is secured by substantially all of our and our subsidiaries' assets and is guaranteed by all of our subsidiaries. The new bank credit facility is subject to borrowing base availability, which is redetermined semiannually based on the banks' estimates of the future net cash flows of our oil and natural gas properties. The borrowing base may be affected by the performance of our properties and changes in oil and natural gas prices. The determination of the borrowing base is at the sole discretion of the administrative agent and the bank group. Borrowings under the new bank credit facility bear interest, based on the utilization of the borrowing base, at our option at either LIBOR plus 1.25% to 1.75% or the base rate (which is the higher of the prime rate or the federal funds rate) plus 0% to 0.5%. A commitment fee of 0.375% is payable on the unused borrowing base. The new bank credit facility contains covenants that, among other things, restrict the payment of cash dividends, limit the amount of consolidated debt that we may incur and limit our ability to make certain loans and investments. The only financial covenants are the maintenance of a current ratio and maintenance of a minimum tangible net worth. We were in compliance with these covenants as of September 30, 2004.

In connection with the formation of Bois d'Arc Energy, we have made available to Bois d'Arc Energy a revolving line of credit in a maximum outstanding amount of \$200.0 million, of which approximately \$151.0 million was outstanding on September 30, 2004. Bois d'Arc Energy and its subsidiaries each became guarantors of our bank credit facility and our 6% senior notes. Bois d'Arc Energy expects to refinance the amounts outstanding under the credit facility provided by us in the near future. The refinancing may include an initial public offering of its common stock, depending on market conditions and various other factors. On October 4, 2004, Bois d'Arc Energy filed a registration statement on Form S-1 with the Securities and Exchange Commission related to a proposed underwritten initial public offering of \$150.0 million of its common stock. At the date of this report, the Form S-1 is not effective. We anticipate that we will maintain a controlling ownership interest in Bois d'Arc Energy after the closing of such refinancing. If Bois d'Arc Energy does not complete a financing transaction which generates sufficient proceeds to repay all of the amounts outstanding under the line of credit with us by February 28, 2005 (or such later date as is determined by Bois d'Arc Energy's Board of Managers), Bois d'Arc Energy will be dissolved and liquidated in a manner designed to put the contributors in a position as near as possible to the same economic position that the contributors would have been in if the contributors had never formed Bois d'Arc Energy and instead had continued to own their respective properties individually.

We believe that our cash flow from operations and available borrowings under our bank credit facility will be sufficient to fund our operations and future growth as contemplated under our current business plan. However, if our plans or assumptions change or if our assumptions prove to be inaccurate, we may be required to seek additional capital. We cannot provide any assurance that we will be able to obtain such capital, or if such capital is available, that we will be able to obtain it on terms acceptable to us.

Section 302 Certification

I, M. Jay Allison, certify that:

1. I have reviewed this September 30, 2004 Form 10-Q/A of Comstock Resources, Inc;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (c) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
